- , (/ \ppi	Apriosint o reopresentative oly	nature – ir appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner called to clarify that the Gamain et al. document submitted in the Novemer 2003 IDS was a post-filing publication (it had not yet been published), and to ask for permission to make an Examiner Amendment to make the following changes to the claims:

in claim 21, the article - - an- - would be inserted between the terms "or" and "immunogenic" in line 2 of the claim. in claim 57, in the phrase "is the immunogenic fragment" in line two of the claim, the article "the" would be replaced by the article - - an- - to clarify that the claim reads on any of the claimed fragments, rather than on a specific fragment. in claim 58, in the phrase "is the immunogenic fragment" in line two of the claim, the article "the" would be replaced by the article - - an- - for the same reason as indicated above with respect to claim 57.

in claim 59, the claim would be amended by inserting the term - -one- - between the words "any" and "of" in the phrase "any of Claims 12, 56, 57, and 58" such that the claim would depend from these claims in the alternative only.
